MIST-IFY nano

PORTABLE SANITISER UNIT

The **MIST-IFY Nano** is one of the most efficient and effective pieces of equipment on the market. It is simple and fast to use. It helps to safeguard your business and home against all viruses and bacteria. Far cheaper than other products and chemicals currently being used.

Its USB charging cable is included (a DC5v adaptor allowing charging from a 3 pin 240v socket is not supplied) giving up to 1 month standby and 2 hours constant use from our built in lithium battery. The 380 ML bottle is easy to remove and fill, the feed tube is fitted with a filter preventing impurities from entering the system. A single touch key control gives you the option of 3 different speeds to suit all applications whilst keeping things simple to operate.

Instant Kill (Hypochlorous acid)

BACTERIAL PROPAGULES

FUNGUS

VIRUS

BACTERIAL SPORES

Substantially more effective at killing harmful bacteria and viruses than standard household disinfectants and exceeding the performance of alcohol based hand sanitisers and is approximately 100 times more effective.

Hypochlorous acid provides an instant kill so you can be reassured once applied to the hands or fogged into a room the risk of spread is stopped dead.

MIST-IFY Nano EFFICIENT STERILISATION

Upon operation fine micro mist is dispersed through the steel atomizing nozzle. As the droplets travel through the air and land on all surfaces making contact they begin killing 99.99% of harmful bacteria and viruses (including COVID 19). It is up to 100 times more effective than standard household cleaning products and alcohol-based hand sanitisers currently used.

The fine micro MIST emitted has a range of up to 2.5m with a 3 speed adjustment and UV lighting. There is no smell, mess or sticky residue and dries to the touch in seconds.

Why our Hypochlorous acid (HOCl) sanitiser is the ultimate disinfectant?

Hypochlorous acid (HOCl) is a natural substance our body produces as a first line defence against pathogens. It is extremely safe, biodegradable and non-corrosive. It is non-flammable and chemical free.

MIST-IFY Instant Sanitiser

Kills 99.99% of viruses and bacteria

Instant Sanitiser is an anti-viral hand surface disinfectant. Effective against a wide range of viruses, bacteria and spores, and laboratory proven to completely kill 99.99%.

Hypochlorous acid is nature's oldest disinfectant, and it happens to be walking around in about 7.5 billion people right now.
